Our Home Elevator Models

Every Cambridge elevator is built to order. Choose the model that fits your home, lifestyle, and budget — then customize it to perfection.

E50

Entry-Level Efficiency

The E50 is our most accessible entry point into residential elevating. Compact, reliable, and easy to retrofit into existing homes — ideal for aging-in-place solutions.

- ✓ Space-saving footprint
- ✓ Smooth hydraulic operation
- ✓ Perfect for 2–3 floor travel
- ✓ Cost-effective installation

Elmira

Classic Craftsmanship

The Elmira blends timeless design with modern engineering. A popular choice for traditional and heritage-style homes across Ontario and beyond.

- ✓ Rich wood cab options
- ✓ Traditional aesthetic finishes
- ✓ Quiet, reliable drive system
- ✓ CSA/ASME certified

Heritage

Premium Residential

Our flagship mid-range model, the Heritage delivers luxury features at an attainable price. Ideal for new construction and major renovations.

- ✓ Full customization options
- ✓ Wide cab configurations
- ✓ Advanced safety systems
- ✓ Smooth ride technology

Cambrian

Contemporary Luxury

The Cambrian is engineered for modern homes that demand a statement piece. Clean lines, glass panels, and premium finishes define this model.

- ✓ Modern minimalist design
- ✓ Glass & steel options
- ✓ Smart home integration ready
- ✓ Premium lighting packages

Homelifts

Shaftless Innovation

No shaft? No problem. Cambridge Homelifts install without a traditional hoistway, making them perfect for retrofit projects with minimal construction impact.

- ✓ No shaft required
- ✓ Transparent panoramic cab
- ✓ Self-supporting structure
- ✓ Compact & stylish

Glass & Custom

Architectural Showpieces

For homes where the elevator IS the design feature. Our luxury glass and machine room-less elevators are fully bespoke — engineered around your vision.

- ✓ Full glass cab configurations
- ✓ Machine room-less hydraulic
- ✓ Bespoke finishes & materials
- ✓ Architect & builder partnerships

Why Homeowners Choose Cambridge Elevating

■ Canadian Made	Designed and manufactured in Canada to meet the highest North American safety standards (CSA B44 / ASME A17.1).
■ Fully Custom	Every elevator is built to order. Choose your cab size, finishes, doors, lighting, and controls to match your home.
■ Expert Installation	Our certified technicians handle everything from site assessment to final commissioning — across Canada and North America.
■ Remote Monitoring	Advanced IoT-enabled monitoring lets our team diagnose and resolve issues before they become problems.
■ Home Automation Ready	Cambridge elevators integrate with leading home automation systems for seamless smart home control.
■ Industry-Leading Warranty	Backed by a comprehensive warranty program and responsive after-sales support for complete peace of mind.

Professional Installation Across Canada & North America

Cambridge Elevating provides full-service home elevator installation from initial consultation through to final inspection. Our network of certified installers spans Ontario and extends across North America through an authorized dealer network.

Government Grants & Funding for Home Elevators

Did You Know?

Many Canadian homeowners qualify for government grants and funding programs that can significantly reduce the cost of a home elevator installation. Programs may be available at the federal, provincial, and municipal levels for seniors, individuals with disabilities, and accessibility improvement projects.

Visit our [Government Grants](https://cambridgeelevating.com/resources/government-grants-home-elevators-lifts/) resource page at cambridgeelevating.com/resources/government-grants-home-elevators-lifts/ to explore available programs in your region.

Ready to Elevate Your Home?

Request a free consultation with a Cambridge Elevating specialist today. We'll assess your home, recommend the right model, and provide a detailed quote — with no obligation.
